Ellen's review:
"GREAT! Compares two similar sounds in English in each "chapter", and gives good ideas for exercises. The "chapters" lend themselves to expansion by a tutor. I also found some complementary videos on YouTube."

"100 Answers to Common English Questions"

Sometimes, even when you know a lot of English, you can have difficulty finding the right words or phrases to answer simple questions. Here are 20 of the most common questions in English - each one with five sample responses. (with audio)

Tutor Tip:

from Tutor Ellen Conway

"My learner constructs vocabulary 'trees' related to broad recurring themes on the 'independent speaking' portion of the TOEFL exam. These graphical representations help her master vocabulary from the abstract to specific around general topics, e.g., transportation, education, friendship, time, etc. My learner finds it helpful to use this graphical approach for brainstorming and identifying key words for her timed speaking responses.

We also use the Oxford picture dictionary and Oxford Picture Dictionary Workbook as resources for describing pictures and employing collocations."
Intermediate ESL Lesson Plan from LinguaHouse.com:

"Job Interview Stories": In this lesson, learners read about some unusual incidents that have happened during job interviews, according to a survey of HR managers in the US.
